## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the abstract, the word "the" was deleted in the first sentence in every occurrence except before "heart" in the second line. This reduces the length to less than 150 words without changing the meaning.

2. The following is an examiner's statement of reasons for allowance: The claims address a method and apparatus for pre-processing CT voxel data for tracking coronary arteries by creating a heart voxel dataset, subtracting cavity voxels (left ventricle, right ventricle, left atrium, right atrium, and aorta) from the heart voxel dataset, enhancing the heart minus cavities dataset, and mixing the enhanced dataset with the original CT dataset (independent claims 1, 7, 13, and 19). This feature is neither shown nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion
